Switch Enclosure

# EFI50 | EFI120 | EFI150

The EFi range (16"/400mm) are reversible ventilators engineered to move large volumes of air. The high-strength, glass reinforced ABS housing is corrosion-proof and chemical resistant. It includes a robust IP55 switch enclosure with a handy 3 metre power cord.

## Virtually indestructible

These units are made extra tough to be able to work alongside your team in harsh areas. They are built with a durable housing designed to withstand industrial workspace environments. The ABS casing is chemical resistant, corrosion proof and dent resistant.

## Engineered to move air

The EFi range meets all of your ventilation requirements. The EFi50 is ideal when you need a high volume and low velocity flow. For a more powerful flow and reduced cooling times, use the EFi120 or EFi150 model.

## Easy storage

These units are designed to be stackable for convenient storage. Rubber grips on the base create extra stability when in use. Transporting the unit is easy with handles for controlled manoeuvring.

## Power Cord

A handy 3 metre long plug and lead is fitted as standard. This enables simple and quick use of the unit.
