

One to Two Room Kit (FTPHTK1-2)

HEAT TRANSFER

IN-LINE DUCT MOUNTED FAN KIT

Heat Transfer Kits are designed to draw warm air from a room with a heat source such as a fireplace or potbelly stove, and deliver this warm air to other areas of the house. They are easy to install and economical to run.

- High air velocity into rooms ensures warm air reaches the occupants.
- Kits include all necessary components.
- High quality in-line fan includes plug and lead.

ACCESSORIES

- VA2.0 Speed Controller/Switch.

- Kits designed for average room sizes of 4m x 4m x 2.5m high, or room volume 38m³.
- Air flow per outlet approx. 50L/sec.
- Minimum velocity at grille outlet is 3.0 to 4.0 m/sec.
- Larger rooms may require more than one outlet.
